COMMON ISSUES WITH GARBAGE DISPOSALS

Most often, people need kitchen garbage disposal repair for the following reasons:

- The unit fails to grind properly, but its motor keeps humming
- Grinding noises are noticeably louder than usual
- There are leaks below the disposal
- Water doesn't drain

Also, the unit might start to run and shut off before you turn it off.

TIPS TO PREVENT BREAKAGE OF GARBAGE DISPOSAL

Avoid throwing potato peels, eggshells, fish skins, large volumes of grease, coffee grounds and other similar types of waste in your garbage disposal. That would be the best way of prolonging the lifespan of your unit.

To remove buildup and harmful bacteria that feed on trash, add a mixture of ½ cup of vinegar and ½ cup of baking soda into the unit every month. Let it sit until the foaming stops, rinse with water and drain.

INSTALLATION OF GARBAGE DISPOSAL

At first sight, kitchen disposal installation might seem like an easy process. Yet to ensure the unit functions properly, you should ask for a professional garbage disposal installation near me. The garbage disposal installation service costs around \$250 and takes a couple of hours.

GARBAGE DISPOSAL REPAIR

If the unit fails to operate as intended, check if the circuit breaker has tripped in the circuit panel. Then, try to reset the circuit breaker — and if this doesn't help, give us a call 3125326435
